

**USDOT Regional Emergency Transportation Coordinator's,  
Regions 8 and 10.**

**Thank you** for your attendance and active participation in exercise Cascade Fury II. The members of the exercise design committee were delighted by the outstanding response, the superb quality of the presenters, the broad-based representation, and the impressive level of involvement by all exercise participants!!

It goes without saying that an exercise of this size and complexity requires a considerable investment in time, energy, thought, and planning. So it was very satisfying to read your many positive comments regarding the exercise, which served to reinforce our opinion, and that of the controllers and evaluators, that Cascade Fury II was a tremendous success!

Please take a moment to visit the Cascade Fury II website where you can find copies of all the presentations, the list of attendees/contacts, and the photographs used in the final slide show at:

Again, we wish to express our sincere appreciation to you and to your respective agencies for taking the time from your busy schedules to attend the exercise and training.

We hope to see you next year!!
